DECAL PACKAGE  
Basic

## TRUCK MOUNT SPREADER

### SAFE ON THE ROAD. TOUGH IN THE FIELD.

The most cost-effective solution for moving high volumes of manure.

Our Truck Mounted Spreader is best suited for all types of applications but especially when substantial road travel is required. Built to travel safely on public roads – saving you time and money.

JBS Truck Mount Manure Spreaders have a superior direct drive to drive the beaters. There are two different hydraulic systems available, basic economic controls or hydraulic piston pump with GPS feed rate controls. The Truck Mount can handle all types of manure; a hydraulic guillotine gate allows you to control the flow.
